Two days on the Snæfellsnes Peninsula

Product Details
Brand: Multi-day tours,
In our multiday tours we stay out in the countryside and have the opportunity to enjoy more beautiful sights because we don't spend time driving to Reykjavik in the evening. We carefully pick our hotels, where there is good food and a good atmosphere. The accommodation, breakfast, and two-course gourmet dinner are included. For Northern Lights hunters staying in the countryside away from the light pollution, we often have a good opportunity to see them. On our tours you will get to know everything about the nature, locals, their interesting food, and folklore.

Amazing tours

Feb 2024 • Couples

We took 2 tours, one of the Snæfellsnes Peninsula with Gunnsi and one of the Golden Circle with Tyffi.
The hotels that were booked for us were fantastic, they were modern and comfortable and had every amenity.
The breakfasts and evening meals of a very high standard and so fresh.
Our guides were the best !! and they really took good care of us. They are very knowledgeable and passionate about their country, and took us to sights we would never have found on our own. They are also very knowledgeable about the history and folklore of Iceland which is really interesting.
We would highly recommend Season Tours ! The guys really do take care of you

The Snæfellsnes Peninsula often is called "Iceland in a nutshell" because it has a little bit of everything. A glacier, waterfalls, gorges, black and brown sand beaches, and beautiful ocean cliffs, and it is also rich in history. On this tour you learn about the crazy Viking Egill Skallagrímsson and his deeds. The finding of land in the west, the geology, the flora and fauna, and anything you want to know about Iceland. Click on the picture for a sample itinerary. Our private tour itineraries can be customized any way you want. Some tour operators offer this tour in one day, but then it is a very long day and you won't see all the beautiful sites.
