**Excellent trip to Jökulsárlón glaciár lagoon and Skaftafell**

May 2015 • Couples

We had a busy tour, my husband and I, we discovered a lot of amazing places and took a lot of wonderful pictures.

The guide explained to us all geological points of interest, and touristic too, with very much patience and friendliness, in spite of our many requests and questions during the travel....

He also took many pictures for us with his own camera.

We saw reindeers, islandic horses, several kinds of birds...and a seal swimming in the glaciár lagoon...but no trolls!

We will keep a great memory of this tour !!
